

What factors are important in your future career?

- Variety of task: Currently I do 2 majors and voluntary work for different organizations. I enjoy being able to switch between the tasks of each activity.
- Colleagues: I love the social aspect of work. Being able to talk to other bright individuals brings out the best in me.
- Creativity: Finding new and innovative solutions is something I like as this helps to move the world forward.

What questions might you ask about a future opportunity in order to work out how it might fulfill your career needs?

- How much variability is there in the tasks you do?
- How much contact do you have with colleagues on a daily basis?
- Do you have the ability to generate new ideas in your role?

What future career goals are you considering?

- Getting a PhD
- Joining a consultancy firm
- Become a air traffic controller
