

5 Courses

Foundations of Virtual Instruction

Emerging Trends & Technologies in the Virtual K-12 Classroom

Advanced Instructional Strategies in the Virtual Classroom

Performance Assessment in the Virtual Classroom

Virtual Teacher Final Project

UCI Extension
Continuing Education

Klaas Joris Schut

has successfully completed the online, non-credit Specialization

Virtual Teacher Program

The Virtual Teacher Program offers the skills needed to transition from teaching in the classroom to facilitating instruction in an online or blended environment.

Course topics provide best practices for online instruction, student engagement and virtual community building; effective uses of asynchronous and synchronous technologies, social media and other emerging technologies; and data analysis techniques and student performance measurements to individualize instruction in an online or blended environment. The program concludes with a final project to apply the knowledge and skills learned throughout the courses.
