

Course: Inspiring leadership through emotional intelligence  
Assignment 3: who helped me most  
Name: Klaas Joris Schut

---

When thinking about 3 names that helped me the most some names just pop into my head: Marcel, Martijn and Joseph.

I met Marcel in 2010 during a Scouting event. Ever since he has been pushing me to work harder, reach higher levels of quality and think about myself more. Even though I had moments I hated him, I also believe this is good as it was these moments that I had to think how to not make the same mistake again. He was very good to made me reflect on myself.

Martijn and I met at the same event as I met Marcel. Although having a completely different style as Marcel his advice has been extremely valuable. A key moment with him was when I decided to stop volunteering for the national scout association. Although he did not like my decision he did support it fully and made me feel as valuable as if I had decided to stay.

Joseph was my supervisor for my master thesis but a key moment was when we went to Brussel to present my work. He told me to fully support my decision to not do a PhD. This made me feel extremely valued.
