

Course: Leadership through emotional intelligence
Assignment 1: Leaders who brought out the best in you
Name: Klaas Joris Schut

Good Leader: MZ

Why: MZ always seemed to value actions and initiative I took. He gave me the chance to develop myself further by allowing me to take part in projects he thought I was suited for. He listened carefully to me and instead of giving advice he asked questions.

Bad Leader: AD

Why: Initiative was not so much valued by AD. Instead she wanted me to do things the way she had instructed. Deviations from the plan were almost never allowed even if the situation might have demanded this. Furthermore the communication with her was mostly my means of e-mail instead of face-to-face.
